LINE MARKING

As per Council's Line Marking of Playing Fields Policy which states "Council cannot assist with line marking of playing fields as in the past. The Park Committees and Clubs using grounds should make their own arrangements to undertake all line marking, including the initial marking at the beginning of the season. Council will assist by pegging fields where pegs or markings have been lost, when adequate notice is given. Council also has available some limited line marking machines to lend out and can provide Tiioxide." This Policy/Code was adopted by Council at its meeting held on 1 August 1989.

Titanium Tiioxide required. Pick up from Works Depot between 9.30am & 11.30am or 12.30pm & 2.00pm.

Office Use Only:
